Wilhelmus, Kirk R. 234
Wilson, L.A. 65
Wolter, J. Reimer 107, 300
Yee, Richard 322
Zavala, Edward Y. 155, 163

Subject Index

Accommodating lenses
An accommodating contact lens, 227
Adverse effects of contact lenses
See: Contact lenses
Aging
Aging changes in the lacrimal gland, 237
Aphakia
Correction of pediatric aphakia with silicone contact lenses, 343
CW 79 extended wear contact lens for the correction of aphakia, 318
Aphakic contact lenses
Extended wear aphakic contact lens fitting in high-risk patients, 231
Astigmatic analysis
Astigmatic analysis of the scleral pocket incision and closure technique for cataract surgery, 206
Bacterial keratitis
Bacterial keratitis associated with extended wear soft contact lenses, 234
Bifocal contact lenses
Experience with soft bifocal contact lenses, 73
Binkhorst formula
An intraocular lens formula for short, normal, and long eyes, 95

Book Reviews
Computer essentials for the ophthalmologist, 196
Dictionary of eye terminology, 7
Real time ophthalmic ultrasonography and biometry: A handbook of clinical diagnosis, 195
Refractive surgery: A text of radial keratotomy, 195
The surgeon's guide to intraocular lens implantation, 195

Index to Volume 11: 1985

SUBJECT INDEX

Calcium
Microscopic and elemental analysis of deposits on extended wear soft contact lenses, 311

Capsulotomy
Nd:YAG laser anterior capsulotomy, 47

Conjunctival mucus
The role of conjunctival mucus in contact lens fitting, 149

Contact lenses
Adverse effects of contact lens wear in a large Japanese population, 141
An accommodating contact lens, 227
Bacterial keratitis associated with extended wear soft contact lenses, 234
Clinical fitting characteristics of extended wear silicone (Silsight) lenses, 339
Contact lens hospital emergencies, 115
Correction of presbyopia with contact lenses, 255
CW 79 extended wear contact lens for the correction of aphakia, 318
Deposits on soft contact lenses of various water contents, 124
European approaches to contact lenses: A panel report, 71
Experience with soft bifocal contact lenses, 73
Extended wear aphakic contact lens fitting in high-risk patients, 231
Hydrogen peroxide disinfection for soft contact lenses contaminated with fungi, 65
Issues relating to the fitting of contact lenses by ophthalmologists: The pros and cons of lens fitting as part of the ophthalmic process, 348
Ocular response to extended wear of hard gas-permeable lenses, 119
Permaflex™ lens for extended wear in myopia, 351
Personal experience with Hydrogel and Silicone extended wear lenses, 136
Piggy-back fitting of contact lenses, 130
Pseudodendrites in soft contact lens wearers, 51
Reproducible measurement of oxygen permeability of contact lens materials, 221
The role of conjunctival mucus in contact lens fitting, 149
Silicone contact lenses: A 13-year perspective, 57
Soft toric lenses: An update, 335

Contact Lens Association of Ophthalmologists (CLAO)
CLAO Exhibitor Product Guide, 15
Officers 1985, 187
President's Message, 91

Contact lens emergencies
Contact lens hospital emergencies, 115

Contact lens fitting
The role of conjunctival mucus in contact lens fitting, 149

Cornea
Refractive keratoplasty: Acute morphologic features, 163

Corneal endothelium
Effect of long-term hard contact lens wear on the corneal endothelium, 322
Interaction between intraocular lenses and surrounding tissues, 300

Corneal grafting
Refractive surgery: Its current status and its future, 358

Corneal implant
Hydrogel keratophakia: Measurement of intraocular pressure, 354

Corneal injury
Adverse effects of contact lens wear in a large Japanese population, 141

Corneal ulcers
Bacterial keratitis associated with extended wear soft contact lenses, 234
CW 79 extended wear contact lens for the correction of aphakia, 318
Extended wear aphakic contact lens fitting in high-risk patients, 231

Cornea/tear film
Aging changes in the lacrimal gland, 237
Tear film osmolarity and keratoconjunctivitis sicca, 243

Corneal thickness
Ocular response to extended wear of hard gas permeable lenses, 119

Cryolathing
Microkeratome Lamellar corneal resection in the rabbit: A model for experimental study of the effects of Barraquer cryolathing techniques, 79

Cryopreservation
Refractive keratoplasty: Acute morphologic features, 163

Cyclodialysis
Sodium hyaluronate (Healon®) in cyclodialysis, 201

Cytopathology
Interaction between intraocular lenses and surrounding tissues, 300

Deposits
See: Contact lenses

Editorial
Changing perspectives in the delivery of ophthalmic care, 4
Hard contact lenses: Where do we stand? 86
First international tear film symposium, 178
Health care issues in the 99th congress, 180

Extended wear contact lenses
Bacterial keratitis associated with extended wear soft contact lenses, 234
Clinical fitting characteristics of extended wear silicone (Silsight) lenses, 339
CW 79 extended wear contact lens for the correction of aphakia, 318
European approaches to contact lenses: A panel report, 71
Extended wear aphakic contact lens fitting in high-risk patients, 231
Microscopic and elemental analysis of deposits on extended wear soft contact lenses, 311
Ocular response to extended wear of hard gas-permeable lenses, 119
Permaflex™ lens for extended wear in myopia, 351
Personal experience with Hydrogel and silicone extended wear lenses, 136
Silicone contact lenses: A 13-year perspective, 57

Fibrosis
Interaction between intraocular lenses and surrounding tissues, 300

Fungemia
Hydrogen peroxide disinfection for soft contact lenses contaminated with fungi, 65

Gas permeable hard contact lenses
Adverse effects of contact lens wear in a large Japanese population, 141
Ocular response to extended wear of hard gas-permeable lenses, 119
Silicone contact lenses: A 13-year perspective, 57

Glaucoma
Sodium hyaluronate (Healon®) in cyclodialysis, 201

Hard contact lenses
Effect of long-term hard contact lens wear on the corneal endothelium, 322
Hard contact lenses: Where do we stand? (editorial), 86
Ocular response to extended wear of hard gas permeable lenses, 119

HEMA contact lenses
Adverse effects of contact lens wear in a large Japanese population, 141

Hydrogel
Hydrogel keratophakia: Measurement of intraocular pressure, 354

Hydrogel contact lenses
Personal experience with Hydrogel and Silicone extended wear lenses, 136

Hydrogen peroxide disinfection
European approaches to contact lenses: A panel report, 71
Hydrogen peroxide disinfection for soft contact lenses contaminated with fungi, 65

Intraocular lenses
An intraocular lens formula for short, normal, and long eyes, 95
Artificial anterior chamber made of rigid PMMA contact lenses, 107
Astigmatic analysis of the scleral pocket incision and closure technique for cataract surgery, 206
Experience in intraocular surgery with the Meditec OPL3 mode-locked and the LASAG Micro-ruptor II Q-switched Nd-YAG lasers, 211
Interaction between intraocular lenses and surrounding tissues, 300
Management of posterior capsule after cataract extraction, 273
Sodium hyaluronate (Healon®) in cyclodialysis, 201
Ultraviolet radiation protection, 39
Nd:YAG laser anterior capsulotomy, 47

Intraocular pressure
Hydrogel keratophakia: Measurement of intraocular pressure, 354

Iridectomy
Experience in intraocular surgery with the Meditec OPL3 mode-locked and the LASAG microruptor II Q-switched Nd-YAG Lasers, 211

Keratomileusis
Refractive keratoplasty: Acute morphologic features, 163
Refractive surgery: Its current status and its future, 358

SUBJECT INDEX

Keratophakia
Hydrogel keratophakia: Measurement of intraocular pressure, 354
Refractive keratoplasty: Lathing and Cryopreservation, 155
Refractive keratoplasty: Acute morphologic features, 163
Refractive surgery: Its current status and its future, 358
Keratorefractive surgery
Microkeratome Lamellar corneal resection in the rabbit: A model for experimental study of the effects of Barraquer cryolathing techniques, 79
Refractive keratoplasty: Acute morphologic features, 163
Refractive surgery: Its current status and its future, 358
Refractive keratoplasty: Lathing and cryopreservation, 155
Lacrimal gland
Aging changes in the lacrimal gland, 237
Tear film osmolarity and keratoconjunctivitis sicca, 243
Lipids
Microscopic and elemental analysis of deposits on extended wear soft contact lenses, 311
Meibomian glands
Microscopic and elemental analysis of deposits on extended wear soft contact lenses, 311
Microkeratome
Microkeratome Lamellar corneal resection in the rabbit: A model for experimental study of the effects of Barraquer cryolathing techniques, 79
Myopia
Permaflex™ lens for extended wear in myopia, 351
Nd:Yag lasers
Experience in intraocular surgery with the Meditec OPL3 mode-locked and the LASAG Microruptor II Q-switched Nd-YAG lasers, 211
Nd:YAG laser anterior capsulotomy, 47
Ophthalmology practice
A *CLAO Journal* survey of trends in ophthalmology practice, 251
Oxygen permeability
Reproducible measurement of permeability of contact lens materials, 221
Oxygen transmission
Clinical fitting characteristics of extended wear silicone (Silsight) lenses, 339
Pediatric contact lenses
Correction of pediatric aphakia with silicone contact lenses, 343
Percentage change formula
An intraocular lens formula for short, normal, and long eyes, 95
Piggy-back contact lenses
Piggy-back fitting of contact lenses, 130
PMMA contact lenses
Adverse effects of contact lens wear in a large Japanese population, 141
Hard contact lenses: Where do we stand? (editorial), 86
Polymegethism
The effect of long-term hard contact lens wear on the corneal endothelium, 322
Polymethylmethacrylate
The effect of long-term hard contact lens wear on the corneal endothelium, 322
Polymorphism
The effect of long-term hard contact lens wear on the corneal endothelium, 322
Posterior capsule
Management of posterior capsule after cataract extraction, 273
Practice management
Issues relating to the fitting of contact lenses by ophthalmologists: The pros and cons of lens fitting as part of the ophthalmic procedure, 348
Presbyopia
Correction of presbyopia with contact lenses, 255
President's message
New directions, 91
Profile of CLAO, 186
Pseudodendrites
Pseudodendrites in soft contact lens wearers, 51
Radial keratotomy
Refractive surgery: Its current status and its future, 358
Refractive astigmatism
Soft toric lenses: An update, 335
Refractive keratoplasty
Refractive keratoplasty: Lathing and cryopreservation, 155
Refractive surgery
Hydrogel keratophakia: Measurement of intraocular pressure, 354
Scleral pocket incision
Astigmatic analysis of the scleral pocket incision and closure technique for cataract surgery, 206
Silicone contact lenses
Clinical fitting characteristics of extended wear silicone (Silsight) lenses, 339
Correction of pediatric aphakia with silicone contact lenses, 343
Personal experience with Hydrogel and Silicone extended wear lenses, 136
Silicone contact lenses: A 13-year perspective, 57
Snynechiolysis
Experience in intraocular surgery with the Meditec OPL3 mode-locked and the LASAG microruptor II Q-switched Nd-YAG lasers, 211
Socioeconomic issues
Editorial, 180
Sodium Hyaluronate
Sodium hyaluronate (Healon®) in cyclodialysis, 201
Soft contact lenses
European approaches to contact lenses: A panel report, 71
Experience with soft bifocal contact lenses, 73
Pseudodendrites in soft contact lens wearers, 51
Specular microscopy
The effect of long-term hard contact lens wear on the corneal endothelium, 322
SRK formula
An intraocular lens formula for short, normal, and long eyes, 95
Tear film
Microscopic and elemental analysis of deposits on extended wear soft contact lenses, 311
Toric lenses
Soft toric lenses: An update, 335
Ultraviolet protection
Ultraviolet radiation protection, 39
Vitreous
Experience in intraocular surgery with the Meditec OPL 3 mode-locked and the LASAG microruptor II Q-switched Nd-YAG lasers, 211
Water contents of contact lenses
Deposits on soft contact lenses of various water contents, 124
